ENGINE PLUNGES
INTO MINE SHAFTA Big Electric Locomotive
Breaks Loose and
Drops 300 Feet.

Miami, Ariz., April 15.—One of the seven ton electric locomotives at the Miami mine dashed through the iron gate which is in front of the cage way on the 420 feet level and fell to the bottom of the shaft which is 720 feet deep.

At the 570 foot level there was a bulk head across the shaft which was used as a cage landing. This bulk head was carried away as though cardboard.

At 520 feet below the surface there is a pump sufficient to handle the water.

The big locomotive landed squarely on top of this pump which was on a bulkhead of two thicknesses of 8x8 timbers. However, nothing was strong enough to stop it and locomotive, pump, bulkhead and obstructing timber were carried into the dump which is only a few feet below the pump station.

Inasmuch as there is 100 feet of water there, it will be impossible to reach the locomotive and pumping machinery for some time to come.

Motorman Jack Hicks who was at the locomotive when it dashed into the shaft says that he was running the other locomotive when the accident which in some way was out of order. Intending to change this locomotive for the one which was out of order, he left his locomotive on the main line and walked to the one near the shaft and placed the trolley on the wire.

Someone had left the controller open and when the trolley was placed on the wire the locomotive started full speed and ran down the shaft leaving Hicks standing where he was when he placed the trolley on the wire. He made every effort to stop the runaway but the start was so rapid that he was powerless to prevent the plunge into the shaft.

When the engine dashed down the shaft the locomotive cleared all but two of the wall plates which were broken. This, however, was the extent of the damage to the big shaft itself.

WOMAN FALLS INTO TUB
OF HOT PASTE MAY DIE

Las Vegas, N. M., April 15.—As the result of falling into a tub of hot paste Mrs. Lucia Garcia, who resides on the west side, is in a critical condition, and it is not believed the woman will recover.

Mrs. Garcia was engaged in papering a room in her house when she was overcome by a fainting spell, believed to have been caused by a slight stroke of paralysis. The woman fell into the waste which was immediately boiling hot. She was unable to extricate herself.

MAKES
A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison.

Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble.

S. S. S. is Nature's blood purifier, harmless and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison.

While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering from Contagious Blood Poison S. S. S. is your most certain reliance, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. Home treatment book with valuable suggestions and any medical advice sent free to all who write.

GUNS OF CASTILLO BREAK SILENCE
OF A CENTURY IN HONOR OF AMERICANSecretary Knox Is Accorded
Distinguished Courtesies
in Venezuela.(Associated Press.)
Puerto Cabello, Venezuela, March 25.—The guns of Castillo de la Cabrera, commanding the eastern extremity of beautiful Lake Valencia, broke the silence of a century today in honor of the government that wrested from Spain her sole remaining possession in the new world.

The compliment is more easily appreciated when the history of the forts is recalled. They were built of stone in the 15th century to protect the Spanish settlers from the Indians. In the war of Venezuelan independence, the works were taken by the revolutionists, but because of their historic associations and the veneration for anything Spanish, the conquerors decreed that their guns should not be destroyed.

The vow was broken by common consent, according to the minister of the interior, Gen. J. A. Matos, who cleverly called upon the president of state to look into the faces of the soldiers who were to be the first to fire. He himself, however, was not to be the first to fire.

Mr. Johnson has been confined to his bed part of the time since his return from the sanatorium at Fort Worth. However, he has been up for the last two or three days and has left for a fishing expedition to Hill's lake, for a fishing expedition to Hill's lake.

EVERY WOMAN

Every woman is invited to consult our Staff of Physicians, Surgeons and Specialists, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., by letter at my expense—R. V. PIERCE, M. D.

There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the female organism. There is every reason why she should write a specialist.

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, fainting spells, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the distinctly feminine organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is devised and put up by a physician of vast experience in the treatment of woman's maladies. Its ingredients have the indorsement of leading physicians in all schools of practice.

The "Favorite Prescription" is known everywhere as the standard remedy for diseases of women and has been so regarded for the past forty years and more.

Accept no secret nostrum in place of "Favorite Prescription"—a medicine of KNOWN COMPOSITION, with a record of forty years of satisfaction behind it. Sold by all Druggists.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Send 31 one-cent stamps to pay cost of wrapping and mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, cloth-bound. Invalids' Hotel and Surgical Institute, R. V. Pierce, M. D., President, Buffalo, N. Y.

The Hare Who Had Many Friends
and How Their Friendship Helped

AN OLD FABLE RETOLD.

By BEATRICE FAIRFAX.

"Friendship, like love, is but a name. Unless to one you stint the flame. The child whom many fathers share Hath seldom known a father's care. 'Tis thus in friendship; who depend On many, rarely find a friend."

"To you, to your wife, to your son and his wife, to Mr. Doyle and the representatives of the American press, and to your other estimable companions, I send a cordial salutation of farewell. I hope only gentle breezes may follow the vessel that bears you to your native land, and that you will ever believe in the sympathy of the Venezuelan people and in my own sincere friendship."

"(Sgd.) J. D. Gomez."

Gomez An Interesting Character.

President Gomez affords an interesting study. He is a strong man and unquestionably popular, as could be seen at the races, where his long horses were backed with patriotic fervor. He is not an educated man, but he has surrounded himself with ministers who are educated and in so doing has shown signal ability. He was the strongest soldier in Castro's time and won most of the latter's battles. He is accordingly strong in the government, which rests on military force. Under his administration Venezuela is setting aside the old and trying to become a republic. He is a candidate for the presidency in the person of Gen. Francisco L. Alcantara, the minister of the interior, who is a candidate of West point and a rather strong man.

Perhaps the brainiest man in the government and certainly the best friend of the United States is the secretary general to the president, Dr. Francisco Gonzalez Guzman, whose office makes him a member of the cabinet. He is said to be the power behind the throne. He was present at all the functions for Mr. Knox, but ever in the background.

Another who is said to be a presidential possibility is Dr. Matos, who outdid himself to entertain the American guests. He led the revolution against Castro.

The shadow of the exiled Castro falls across the Colombian border. It is generally believed that he is somewhere on the plantation of his brother-in-law, just over the line in Colombia. Some believe he is on his way to the United States, but his followers who enter Venezuela, he led the revolution against Castro.

MORE THAN SKIN DEEP

MORE THAN A SKIN SALVE IS NEEDED TO CURE PILES

Don't be disappointed if you fail to get a lasting cure of piles with salves. The cause of piles is more than skin deep. It is singular, flabby veins—pockets filled with thick, hot blood.

HEM-RID, a tablet tonic remedy, is taken inwardly, acts on the circulation and cures all kinds of piles thoroughly.

Working Or Dreaming; Girl Is
Fortunate Who Can Do Both

By WINIFRED BLACK.

SHE'S a stenographer, and she's a good stenographer, too. She is a good, quick-witted, good-humored, industrious, intelligent, but she never keeps a position longer than two or three months at a time.

"I lose all interest in my work," she says. "I love books and pictures and music—and I hate drudgery. I can't stay in one place long. The monotony of the work drives me. What shall I do? I am the support of my mother, and my mother is getting old. How can I support her? What shall I do?"

Her mother said: "What is there for you to do but keep on working? What other excuse is there for the food you eat and the roof that shelters you?"

How many people do you think there are in the world who work because they want to, or because they enjoy the work they find to do? Not one. They work because they are just one of those ones.

So you love music, pictures, books. Hark, for you are about to be thankful for all these tastes, and you should say a little prayer of gratitude every time you think of them. They are worth everything in the world to you.

You're rich, dear child, richer far than the old fellow who pays you to write his letters for him, and who is bored to death at the very thought of the work he finds to do. Not one of those ones.

Give up your honest, regular work to go mooning around looking for "better things."

What utter nonsense. What! Higher things are there in life than the thing you are doing—taking good care of your mother?—a decent book, and who can't stay awake when he hears good music to save his life.

That sort of that sort is capital to you, so much in the bank of human enjoyment.
